

PHOTOGRAPHY

Personal Collage 1

dates & hints

TARGET(S)

- To use the Adobe Photoshop program and investigate various tools and features.
- To use Layers effectively.
- To create a collage that represents you.

COLLAGE DUE

December 17-18

DETAILS

Your personal collage should be an "overall" representation of you! It may include any of the ideas listed below, but is not limited to this list. Be sure that it is appropriate and do the best job you can. This is one of a few collages you will complete this year, so it is important that you learn how to use the layers and Photoshop tools effectively.

Since this is **about** you, find photos **on the Internet** that represent YOU. There should be NO photos of you, rather we want to see things that represent you and who you are. There will be another assignment in the future where you will take these photos on your own.

In order to make you think about what is really important to you, you will be limited to FIFTEEN photographic elements. You may use single words to represent ideas, but you will be limited to FOUR words that represent you.

Photos should be resized to signify importance to you – things that are larger will be more important. You should also attempt to use layers and effects to blend your photos together so that they look to be integrated together to tell us a story about you.

Collage size is 8 X 10 (or 10 x 8) and resolution is 150!

Ideas:

- hobbies
- movies
- sports
- music
- awards
- cars
- travel/vacation
- college
- pets
