

PHOTOGRAPHY I

Cultural Collage - Research

TARGET(S)

- To investigate other cultures.
- Use the tools to create a collage that represents the diversity of other cultures.
- Investigate various tools and features in Adobe PhotoShop.
- Learn to use layers effectively in PhotoShop.

FORM DUE

DETAILS

Using the Internet, find information about your chosen culture. You will need to find 10 facts for each category you choose. You must write them down on this sheet for reference later. When searching for images to use in your collage, you will reference this page. Look for people, places and things that are important to each category. Be specific in your research (this will not be easy at first).

POTENTIAL CATEGORIES

Art (required for everyone), religion, people, traditions/customs, holidays/celebrations, architecture, literature.

SOME HINTS

You should look for how this culture uses symbols to represent their culture, what types of art and their artists. Is there a specific type of art that is prevalent in this society?

What type of religion is practiced here? Is there a dominant religion and what type of things are important?

What are some specific things about the people in this culture? Do they wear certain things, or how are certain people important in this culture?

What type of traditions and customs are important in this culture?

What type of holidays, celebrations or traditions are specific to this culture?

What is important about any structures? Does this society use a certain type of architecture?

How is literature important? How is the literature passed down to each generation? Important authors?
