

TARGET(S)

- To use the Adobe Photoshop program and investigate various tools and features.
- To use Layers effectively.
- To create a collage that represents you.

After completing Personal Collage 1, now you will take photos that represent you to make a similar collage.

DETAILS

Your personal collage should be an "overall" representation of you! It may include any of the ideas listed below, but is not limited to this list. Be sure that it is appropriate and do the best job you can. This is one of a few collages you will complete this year, so it is important that you learn how to use the layers and Photoshop tools effectively.

Since this is **about** you, take photos that represent YOU. You are expected to take a minimum of 20 photos for this assignment. You won't use them all, and this will give you multiple options to choose from when creating your final product. It is possible that you may want to use images that you have at home that are not in an electronic format. You have the ability to bring photos to class that can be scanned and included in the collage.

In order to make you think about what is really important to you, you will be limited to 15 photographic elements. You may use single words to represent ideas, but you will be limited to FOUR words that represent you. You will also be limited to ONE PHOTO of yourself in the collage.

Photos should be resized to signify importance to you – things that are larger will be more important. You should also attempt to use layers and effects to blend your photos together so that they look to be integrated together to tell us a story about you.

Collage size is 8 X 10 (or 10 x 8) and resolution is 150!

Create a contact sheet of all photos taken and turn it in with your mounted collage.

Ideas:

- Family
- Friends
- Hobbies
- Movies
- Sports
- Music
- Awards
- Cars
- Travel/vacation
- College
- Pets
