

# Digital Photography II

## Texture-Lines-Patterns

### Summary

You will look for textures, lines and patterns in everyday life and display them in your photos.

### Final Product

Contact sheet and four mounted 10x8 photographs

### Due Date

October 14

Thanks to Riverdale HS, Portland, OR for this assignment.

There are textures, lines and patterns everywhere we look. Now go capture them with your cameras. We are looking for that great photo that captures the viewers eye.

You can use close-up or wide angle photos, but you need to be looking for unique perspectives. Show us the object(s) in a way we may not have seen before. We may

Your contact sheet should show your instructor that you experimented with different angles, techniques, and camera settings in order to produce the best shots.

Many of these photos may look great in black and white (this is something we will explore this week).

You are expected to take 35-40 photos at a minimum for this assignment. Take a lot to experiment with new ideas.
