

# Digital Photography II

## Texture Book

### Summary

In groups, you will create a book of images depicting textures.

### Final Product

A bound book of 16 pages (minimum).

This book will have holes to look through to guess the item by the texture. We may donate these books to local elementary schools.

Turn in all contact sheets for all group members.

### Due Date

January 27

Your group of four will create a photo book (with a minimum of 4 photos per person) that will be a texture guessing book, mainly aimed at kindergartners. When looking at the first page, the viewer will see a page of construction paper with a hole cut in it. Part of your object will be shown here with a significant part of the texture showing through, but not enough to guess the object. When the page is turned, the object will be revealed.

You will need to find cool objects to photograph, items that can easily have a single part showing through to have the viewer guess the object. Remember your audience and shoot photos that will be fun for them.

We will attempt to bind these books to create a good final product. Size and format should be determined by the group.

All photos will be new photos taken for this assignment. You will need to have your photos taken and in production by January 24 at the latest. We will work on binding the final products that week.

You will need to turn in contact sheets for all group members **prior** to beginning the construction of your book.
